VOTING REQUIREMENT

Simple Majority

RISK IMPLICATIONS

The Financial Activity report is presented monthly and provides a retrospective picture of the activities at the shire. Contained within the report is information pertaining to the financial cost and delivery of strategic initiatives and key projects.

To mitigate the risk of budget over-runs or non-delivery of projects, the Chief Executive Officer (CEO) has implemented internal controls measures such as regular Council and Management reporting and a quarterly process to monitor financial performance against budget estimates.

Materiality reporting thresholds have been established by council of \$10,000.00 for budget operating and capital items to alert management prior to there being irreversible impacts.

Agenda – Ordinary Council Meeting – Friday 20th December 2024

It should be noted that there is an inherent level of risk of misrepresentation of the financials through either human error or potential fraud.

The establishment of control measures through a series of efficient systems, policies and procedures, which fall under the control of the CEO as laid out in the *Local Government (Financial Management) Regulations 1996 regulation 5*, seek to mitigate the possibility of this occurring.

These controls are set in place to provide daily, weekly and monthly check to ensure that the integrity of the data provided is reasonably assured.

OFFICERS RECOMMENDATION

That Council receive the Statement of Financial Activity for the period ended 30 November 2024 in accordance with Regulation 34 of the Local Government (Financial Management) Regulations 1996.

Yalgoo Hotel Business Case

Unfortunately valuations have not yet been received. Any associated reports and business plans will be prioritized in the new year.

Councillor Training

Finance for non-financial people – LG Professionals (February)

Bookings will be made for two nights in Perth for Councillors who are able to attend this Course.

Morawa Containers for Change

The community organisation managing containers for change in Morawa have expanded their operations to Golden Grove. Administration is in discussion to bring a similar sea container deposit system to Yalgoo.

Road Construction – Flood Damage

Administration has held back on the delivery of Capital Project due to the delay in funding from DFES. Additional information has been provided so that sign off can occur before DFES breaks for Christmas. Comments have been made by the Department on a limitation to receive any funding after this Calendar year concludes.

Disability Access and Inclusion Plan

Administration is currently conducting a 5 year review of the Shires Disability Access and Inclusion Plan. Feedback will be sought from the community via the Bulldust and Seniors Morning Tea with the intention of providing a report to Council in April.

Yalgoo Town Speed Limit – Geraldton Mt Magnet Hwy

Correspondence has been received from the Hon Rita Saffioti Minister for Transport who has successfully reduced the speed limit through the townsite to 70km/h. Heavy haulage companies are on board reducing their vehicle speeds through town and Administration is seeking approval from Main Roads WA (MRWA) to install radar speed indication signage on the highway. Administration has queried why profiling work is being undertaken in Geraldton on the same highway when there are significant failures along its whole length.

Agenda – Ordinary Council Meeting – Friday 20th December 2024

Road Closures

Some areas of the Shire have been impacted by heavy downpours and significant winds. 70mm were recorded in a single night by some stations. This resulted in large parts of the unsealed local network being closed for 3-4 days.

Flood Damage work has commenced an off swing across the Christmas break.

14.2 Yalgoo Chambers Conference Call and Meeting Recording Equipment

Applicant:	Shire of Yalgoo
Date:	11/12/2024
Reporting Officer:	Chief Executive Officer Ian Holland
Disclosure of Interest:	NIL
Attachments:	Redfish Quote 32854 & 32855

SUMMARY

That Council consider quotes for audio recording and/or conference call capabilities.

COMMENT

Quotes have been obtained from Redfish a WALGA preferred supplier for the installation and support of an individual microphone per Councillor tied through a conference and recording system. Brochures and quotes are tabled for consideration.

Off the shelf systems from Yealink and Logitech are in the vicinity of \$10,000 without installation or ongoing support of meeting recordings, meaning this would have to be costed separately.

A budget of \$35,000 exists to implement a Council meeting recording system and it would be sensible if the system incorporated the ability for the whole chamber to participate in a conference call.

14.3 Direct Interest Native Vegetation Clearing

Applicant:	Shire of Yalgoo
Date:	11/12/2024
Reporting Officer:	Chief Executive Officer Ian Holland
Disclosure of Interest:	NIL
Attachments:	Letter DWER

SUMMARY

That Council provide comment on a Clearing Permit applied for by Horizon Power.

COMMENT

The Department of Water and Environmental Regulation (the department) has received an application under section 51E of the *Environmental Protection Act 1986* (the EP Act) from Regional Power Corporation, trading as Horizon Power that proposes to clear 42.6 hectares of native vegetation within multiple land parcels within Meekatharra, Sandstone, Wiluna and Yalgoo for the purpose of installation of renewable energy infrastructure and supporting infrastructure.

In accordance with section 51E(4A) of the EP Act, the department considers that you may have a direct interest in the subject matter of the application, and invites your comment. In particular, the department would welcome your comments in relation to: whether the proposed clearing is consistent with your:

- local Town Planning Scheme
- local and regional planning strategies and/or policies
- local biodiversity guidelines and/or plans and/or environmental impact assessment decisions; and
- whether any planning approvals have been granted and/or are required. If planning approvals are required, please advise whether an application has been received.

While Horizon power have renewed existing contracts they have indicated via correspondence that they still intend to improve their sustainable generation of electricity by 2030.

The land in question borders the Public Drinking Water Source Area (SCA1) which does not allow the use of a Power Station. Solar related projects are not discussed by the Yalgoo Planning Scheme.

Prior to the subdivision or development of any lot where there is remnant native vegetation, Council may seek advice from the Department of Conservation and Land Management as to whether any declared rare flora will be affected by the proposal, and shall put in place measures to preserve the remnant native vegetation, if the lot contains declared rare flora

14.4 Pastoral Lease Extension

Applicant:	Shire of Yalgoo
Date:	12/12/2024
Reporting Officer:	Chief Executive Officer Ian Holland
Disclosure of Interest:	NIL
Attachments:	Aerial Map – Maranalgo Station Pastoral Lease

SUMMARY

That Council That Council support the lease extension of Maranalgo Station.

COMMENT

The Department of Planning, Lands and Heritage (Department) is investigating a proposal submitted by the current Lessee of Maranalgo Station (Pastoral Lease N049454) to extend Lease N049454 for a period of 50 years. Maranalgo Station is located south of Paynes Find Settlement and comprises of Lot 4271 on Deposited Plan 238591 (LR3074/656).

To enable the continuation of the Maranalgo Station Regeneration project (ERF - 122226), a mandatory 25 year permanence period is required under the *Carbon Credits (Carbon Farming Initiative) Act 2011* (CFI) to ensure the project has sufficient time to cover all project obligations.

Pastoral Lease N049454 was granted in 2015 and is due to expire in 2040 however, the Lessee seeks to utilise a new provision under section 105(A) of the *LAA* by requesting a lease extension to maintain this project.

The Shire of Yalgoo has been sought for comment as part of the Departments due diligence process.

Long term viable use of pastoral land is a benefit to the local government as there is both a forecastable rate income and property owner responsibilities for fire management.

Applicant:	Shire of Yalgoo
Date:	12/12/2024
Reporting Officer:	Chief Executive Officer Ian Holland
Disclosure of Interest:	NIL

A Reform Webinar will be available at or after Thursday 19th December 10am – 12.

Administration is taking the advice of WALGA to meet key upcoming deadlines for changes. The Acting DCEO is also working to compile policies and documents that will require amendment as a result of these changes.

Many regulations relating to this amendment are yet to be released by the Department. Key areas of focus moving forward will relate to:

- Model Standing Orders
- Communication Agreements
- Recording of Council Meetings
- Independent Person on Risk/Audit Committee

14.7 Report on Emergency Services and Shire Capacity over Christmas

Applicant:	Shire of Yalgoo
Date:	16/12/2024
Reporting Officer:	Chief Executive Officer Ian Holland
Disclosure of Interest:	NIL

SUMMARY

That Council receive a report on Christmas and New Year staffing as it relates to emergency services and confirm appointment of an extra Fire Control Officer.

COMMENT

A small number of staff will remain available in town across December and January to maintain the Water Park, Gardens, Public Toilets and Caravan Park. Staff are still encouraged to apply for annual leave at this time of year due to the often extreme conditions.

The Yalgoo Sub Centre of St John Ambulance will endeavor to provide local coverage where possible however there will be some days and times this is not possible. This will be communicated to Perth COMMS.

A capability report will be provided to Geraldton DFES closer to December AO and CSM support remains across this period. It will be highly likely that the Yalgoo and Paynes Find BFBs will be able to field an appliance in response to a fire however, due to the current high risk conditions a strike team will be requested from DFES at the time of activation. This will provide some capability in the event further local volunteers cannot be sourced.

The Paynes Find appliance is currently receiving emergency repairs after issues with sensors.

As always, administration will attempt to mobilize any trained and capable volunteers in the event of an emergency.

Jim Mcnamarra a prospector from Paynes Find has signed up to the Yalgoo BFB. Jim is an experienced Bushfire Control Officer from the wheatbelt and previously worked for DFES. It is asked that Council endorse him as a Fire Control Officer for the district.

SUMMARY

To access funds from the Shire of Yalgoo Reserve Accounts, 8. (a)(f) – Buildings Maintenance Reserve, for the purpose of funding refurbishment works at the Railway Station, Piesse Street, Yalgoo.

COMMENT

Application for Grant funding was made earlier this year, however, apparently the “physical works” is ineligible under the Community Heritage Stream.

The scope for the end east room with double doors was to have the window frames refurbished, together with the windows sashing’s renewed and weights checked for balance, replacing Perspex windows with glass, and application of crim-safe to protect the new windows.

The works also included the replacement of all air conditioners within the building as those in-situ have reached their use by date and to now have them serviced is more costly than the replacement value. Furthermore, the two split systems on the North facing wall will be relocated to either the west or east side of the building, allowing future scope for beautification with Corten Steel displays/sculptures along the North facing wall.

A portion of the total is also to be used to repaint the interior of the double doored room in Heritage colours.

Once this room is made fit for purpose, it is intended to be used to house the Library and create a CRC environment for both the local community and the tourism trade.

PUBLIC QUESTION TIME - FOR INFORMATION PURPOSES ONLY

The Shire of Yalgoo welcomes community participation during public question time of Council Meetings. The following is a summary of s5.24 of the Local Government Act 1995, the Local Government (Administration) Regulations 1996 and Shire Policy, to provide a guide for public question time.

To enable a prompt and detailed response to questions, members of the public are requested to lodge questions in writing to the Chief Executive Officer at least two days prior to a Council meeting. This can be done:

- a. In person at the Shire of Yalgoo Office, 37 Gibbons St, Yalgoo
- b. By emailing the Executive Support Officer pa@yalgoo.wa.gov.au
- c. By phoning the Executive Support Officer (08) 9962 8042

When registering a question members of the public will be required to provide the following for record keeping and response:

- a. Name, Address, Contact Number and Name of Organisation representing (if any)
- b. A written copy of the question to be asked at Public Question Time

It is recommended to arrive at the Council Meeting 15 minutes to commencement if you have not registered a question in advance.

The presiding Member will open Public Question Time where appropriate and, if necessary, provide a brief summary of the rules, regulations and procedures of Public Question Time.

- 1. The person asking the question is to state their name prior to asking the question.
- 2. Questions are to be directed through the chair, with the Presiding Member having the discretion of accepting or rejecting a question and the right to nominate a Councillor or Officer to answer.
- 3. In order to provide an opportunity for the greatest portion of the gallery to take advantage of question time, questions are to be as succinct as possible. Any preamble to questions should therefore be minimal and no debating of the issue between the Gallery, Councillors or Officers is permissible.
- 4. Where the Presiding Member rules that a member of the public is making a statement during public question time, then no answer is required to be given or recorded in response.
- 5. Questions which are considered inappropriate; offensive or otherwise not in good faith; duplicates or variations of earlier questions; relating to the personal affairs or actions of Council members or employees; will be refused by the Presiding Member as 'out of order' and will not be recorded in the minutes.
- 6. Questions from members of the public that do not comply with the Rules of Question Time or do not abide by a ruling from the Presiding Member, or where the member of the public behaves in a manner in which they are disrespectful

Agenda – Ordinary Council Meeting – Friday 20th December 2024

of the Presiding Member or Council, or refuse to abide by any reasonable direction from the Presiding Member, will be ruled 'out of order' and the question will not be recorded in the minutes.

7. Answers to questions provided in good faith, however, unless reasonable prior written notice of the question is given, answers should not be relied upon as being totally comprehensive.
8. The priority for asking questions shall be firstly 'questions on which written notice has been given prior to the meeting' (that is, prior to 12 noon on the day immediately preceding the meeting) and secondly, 'questions from the floor'.
9. Public Question Time is set for a maximum period of 15 minutes, and will terminate earlier should no questions be forthcoming.
10. There are circumstances where it may be necessary to place limits on the asking of questions to enable all members of the public a fair and equitable opportunity to participate in Public Question Time. In these events the Presiding Member will apply the most appropriate limit for the circumstance. Generally each member of the public shall be provided a maximum two minutes time limit in the first instance, in which to ask a maximum of two questions (whether these are submitted 'in writing' or 'from the floor'). A question may include a request for the tabling of documents where these are relevant to an issue before Council.
11. Should there be time remaining on the initial period for Public Question Time (i.e. 15 minutes) after all members of the public have posed their initial allotment of two questions, the Presiding Member will then allow members of the public to sequentially (in accordance with the register) ask further questions (with necessary limits in place as discussed above if required) until the initial period for Public Question Time has expired.
12. Any extension to the initial period for Public Question Time is to be limited to a period that will allow sufficient time for any remaining members of the public to ask their initial allotment of two questions.
13. Where a question (compliant to these rules) is raised and is unable to be answered at the meeting, the question shall be 'taken on notice' with an answer being given at the next appropriate Council Meeting.
14. Where a member of the public submitting a question is not physically present at the meeting, those questions will be treated as an item of correspondence and will be answered in the normal course of business (and not be recorded in the minutes).

NATIONAL LOCAL ROADS, TRANSPORT & INFRASTRUCTURE CONGRESS

Margaret River | 3 - 4 December 2024

Communique

2024 National Local Roads, Transport and Infrastructure Congress

220 local government leaders and engineering and works staff from across Australia gathered in Margaret River, Western Australia from 3-4 December for the 2024 National Local Roads, Transport and Infrastructure Congress.

We acknowledged the Wadandi and Pibelmen peoples as traditional custodians of the lands on which we met, and paid our respects to their elders past, present and emerging.

This year's Congress included a significant focus on road safety. Congress delegates acknowledged that local governments manage more than 75% of Australia's road network and have a key role to play addressing Australia's unacceptable national road toll.

Delegates acknowledged the importance of prioritising road safety in infrastructure investments, and discussed opportunities to deliver safer roads in both regional and urban settings.

Sustainable funding is a significant barrier, and ALGA will continue to advocate for more federal support for councils to improve the condition, safety and productivity of Australia's road network.

We welcomed and thanked the federal politicians who addressed our Congress, including Minister for Local Government the Hon Kristy McBain, and Shadow Minister for Infrastructure, Transport and Regional Development Senator the Hon Bridget McKenzie.

NATIONAL LOCAL ROADS, TRANSPORT & INFRASTRUCTURE CONGRESS

Margaret River | 3 - 4 December 2024

This year's Congress included sessions on improving freight productivity, decarbonising Australia's transport sector, water management, regional airports, addressing the housing crisis, renewable energy transition, the circular economy, and active transport and electric vehicle trends.

The event also covered effective asset management, which is vital to the broad range of services and functions delivered by councils.

We also heard from National Emergency Management Coordinator-General Brendan Moon about recent national emergency management reviews, and how councils can support the implementation of their recommendations.

Sustainably funded, councils can deliver roads and community infrastructure that will support local solutions to national priorities.

Increasing federal formula-based funding to local government will assist councils to build stronger, more productive and resilient communities.

In the lead up to the next federal election, councils will be calling on all parties and candidates to put our communities first, and provide fair funding to local government for the benefit of all Australians.

Dear Sir

PROPOSED HEAVY VEHICLE PARKING BAY – GERALDTON-MOUNT MAGNET ROAD, YALGOO

I refer to our telephone conversation on 11 December 2024, regarding a proposed Heavy Vehicle Parking Bay.

Main Roads Western Australia (**MRWA**) is currently seeking approvals for a proposed Heavy Vehicle Parking Bay (**HVPB**) on Geraldton-Mount Magnet Road, Yalgoo 214.4 Straight Line Kilometre within the Shire of Yalgoo.

A HVPB is required on Geraldton-Mount Magnet Road due to a gap in truck parking bays in a westbound direction. Currently trucks stop at the unmanned fuel station/information bay, which is small. Truck drivers also stop on the verge at random locations causing damage to the shoulder and sealed edge, posing safety risk to road users.

As part of the proposed HVPB project, MRWA requires additional land to widen the road. MRWA has identified that land is required from Lot 219 on Deposited Plan 40823, held in Freehold and owned by the Shire of Yalgoo.

Attached for consideration by Council are plans depicting the area of land required for the HVPB project to widen portion of Geraldton-Mount Magnet Road, Yalgoo. The land shaded grey on the enclosed Land Dealing Plan (**LDP**) 2460-274 is required for inclusion in the road reserve.

Attached also is a plan showing the design in relation to the acquisition area. Main Roads confirms that the water tank will not be included in the area to be acquired.

MRWA requests the Shire to provide comments and consent to the following:

- confirm that they support the proposed HVPB;
- agree to the acquisition of land shown on LDP 2460-274 from Lot 219 on Deposited Plan 40823 by MRWA, and for that land to be dedicated as part of the Geraldton-Mount Magnet Road;

- confirm if the Shire will cede the land shown on LDP 2460-274 free of cost, or a nominal value, to MRWA;
- advise whether any interests or leases have been granted over Lot 219 on Deposited Plan 40823 that would be affected by the proposed road widening, dedication and excision; and
- consent to Main Roads and its contractors to enter onto Lot 219 on Deposited Plan 40823 to carry out any construction works and relocation of existing services that may commence prior to the acquisition being completed.

MRWA will pay the costs associated with the acquisition and dedication, including survey and registration costs.

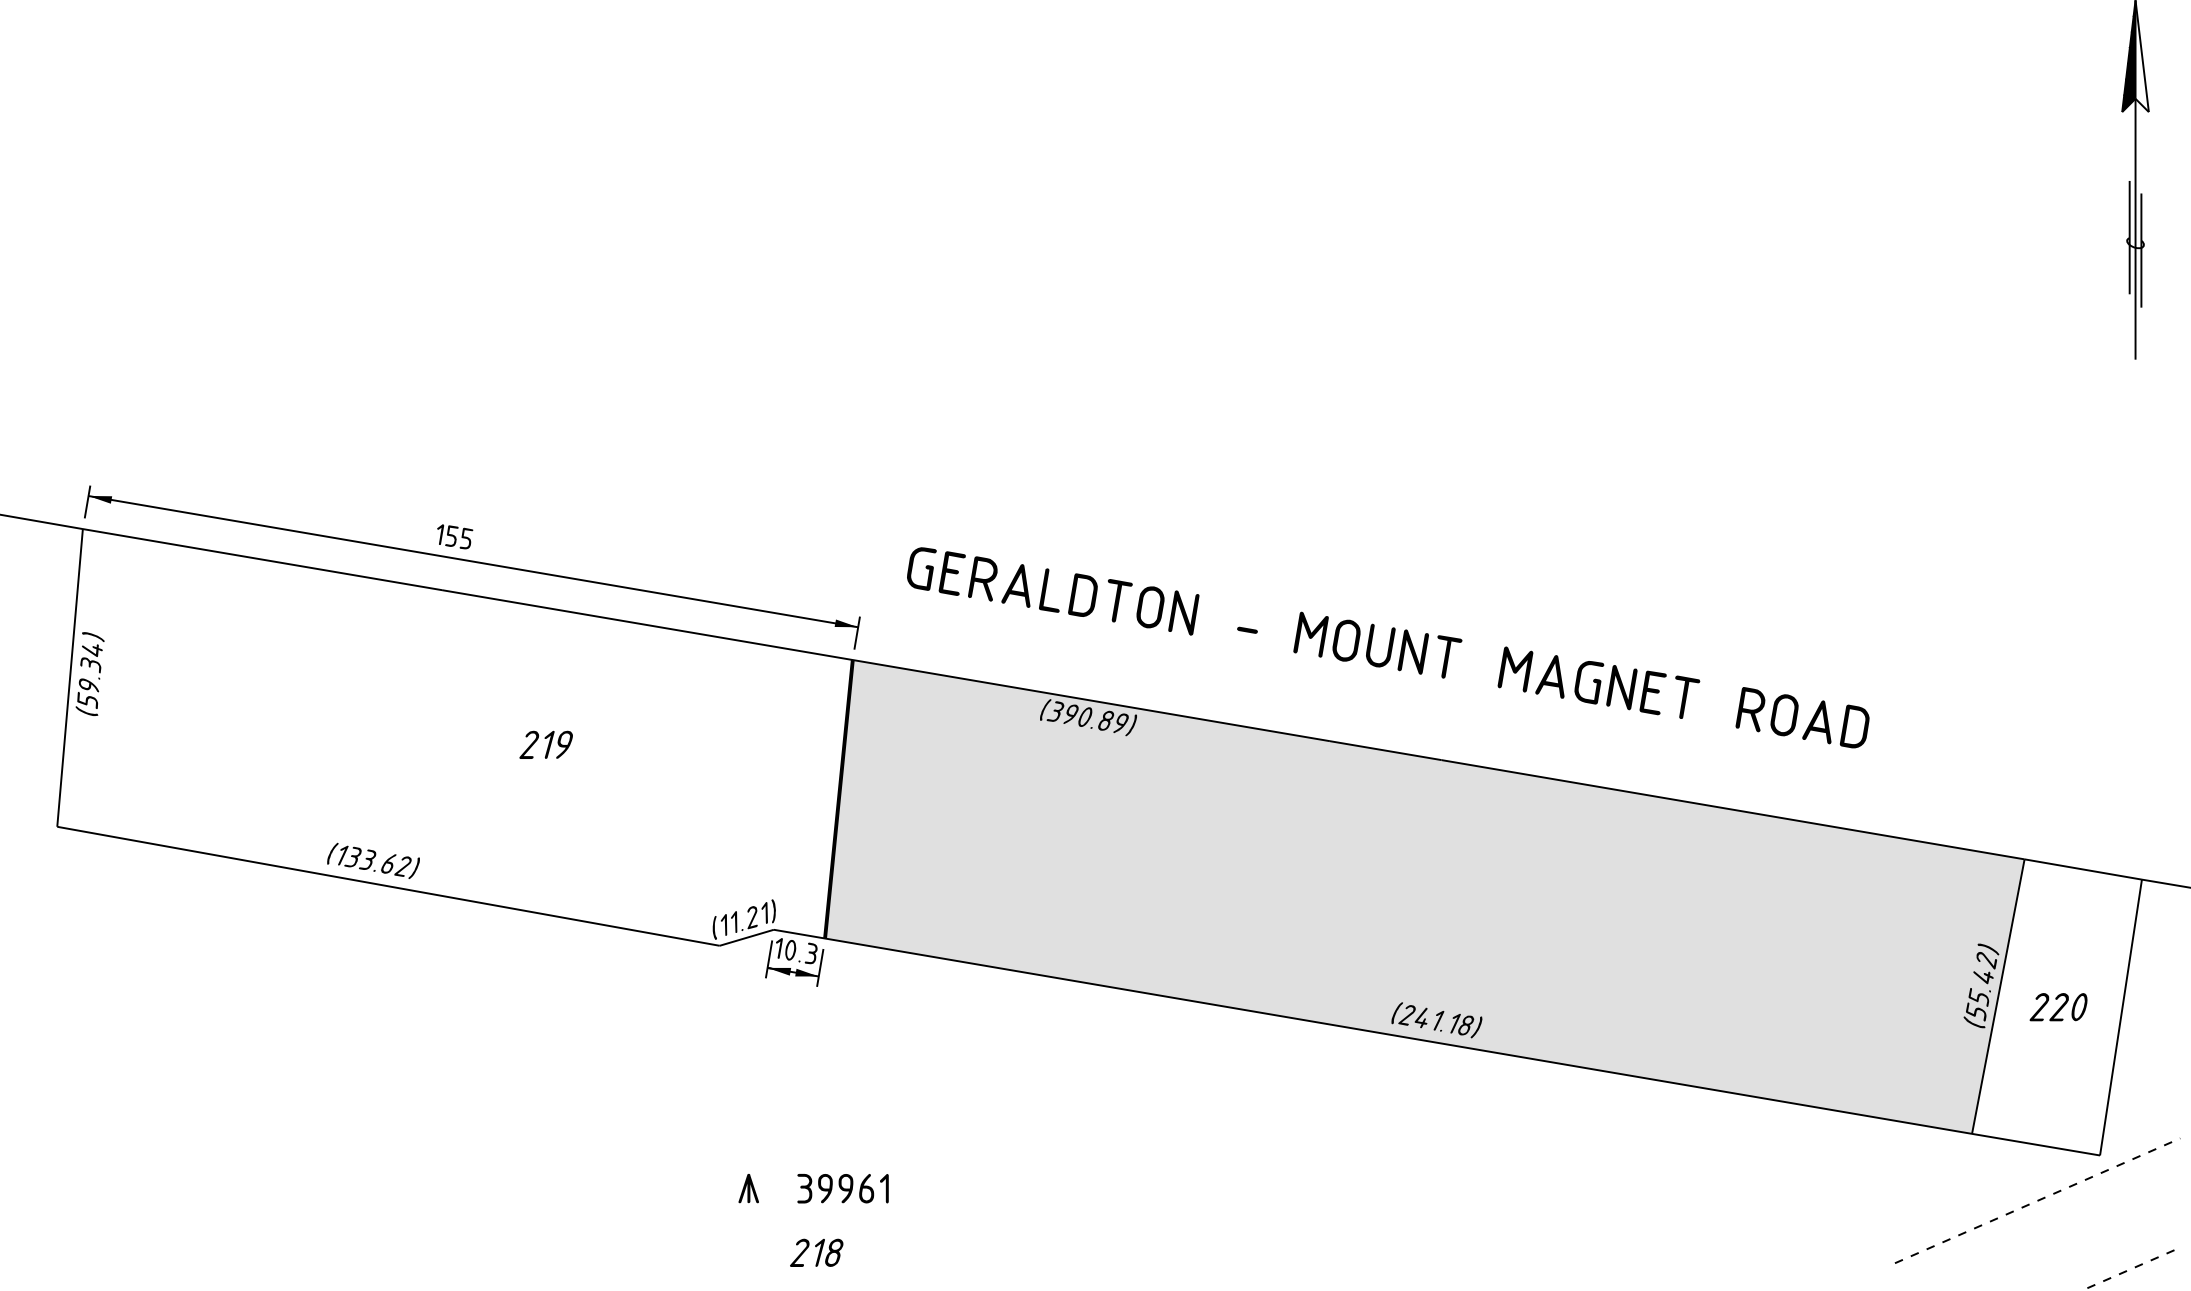

If you require any further information, please contact me on 9323 4082 or e-mail rene.shipp@mainroads.wa.gov.au.

Yours faithfully

René Shipp
Land Assembly Officer

NOTES TO THE STATEMENT OF FINANCIAL ACTIVITY

FOR THE PERIOD ENDED 30 NOVEMBER 2024

1 BASIS OF PREPARATION AND MATERIAL ACCOUNTING POLICIES

BASIS OF PREPARATION

This prescribed financial report has been prepared in accordance with the *Local Government Act 1995* and accompanying regulations.

Local Government Act 1995 requirements

Section 6.4(2) of the *Local Government Act 1995* read with the *Local Government (Financial Management) Regulations 1996*, prescribe that the financial report be prepared in accordance with the *Local Government Act 1995* and, to the extent that they are not inconsistent with the Act, the Australian Accounting Standards. The Australian Accounting Standards (as they apply to local governments and not-for-profit entities) and Interpretations of the Australian Accounting Standards Board were applied where no inconsistencies exist.

The *Local Government (Financial Management) Regulations 1996* specify that vested land is a right-of-use asset to be measured at cost, and is considered a zero cost concessionary lease. All right-of-use assets under zero cost concessionary leases are measured at zero cost rather than at fair value, except for vested improvements on concessionary land leases such as roads, buildings or other infrastructure which continue to be reported at fair value, as opposed to the vested land which is measured at zero cost. The measurement of vested improvements at fair value is a departure from AASB 16 which would have required the Shire to measure any vested improvements at zero cost.

Local Government (Financial Management) Regulations 1996, regulation 34 prescribes contents of the financial report. Supplementary information does not form part of the financial report.

Accounting policies which have been adopted in the preparation of this financial report have been consistently applied unless stated otherwise. Except for cash flow and rate setting information, the financial report has been prepared on the accrual basis and is based on historical costs, modified, where applicable, by the measurement at fair value of selected non-current assets, financial assets and liabilities.

PREPARATION TIMING AND REVIEW

Date prepared: All known transactions up to 00 January 1900

THE LOCAL GOVERNMENT REPORTING ENTITY

All funds through which the Shire controls resources to carry on its functions have been included in the financial statements forming part of this financial report.

All monies held in the Trust Fund are excluded from the financial statements.

MATERIAL ACCOUNTING POLICIES

Material accounting policies utilised in the preparation of these statements are as described within the 2024-25 Annual Budget. Please refer to the adopted budget document for details of these policies.

Critical accounting estimates and judgements

The preparation of a financial report in conformity with Australian Accounting Standards requires management to make judgements, estimates and assumptions that effect the application of policies and reported amounts of assets and liabilities, income and expenses.

The estimates and associated assumptions are based on historical experience and various other factors believed to be reasonable under the circumstances; the results of which form the basis of making the judgements about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

As with all estimates, the use of different assumptions could lead to material changes in the amounts reported in the financial report.

The following are estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year and further information on their nature and impact can be found in the relevant note:

- Fair value measurement of assets carried at reportable value including:
 - Property, plant and equipment
 - Infrastructure
- Impairment losses of non-financial assets
- Expected credit losses on financial assets
- Assets held for sale
- Investment property
- Estimated useful life of intangible assets
- Measurement of employee benefits
- Measurement of provisions
- Estimation uncertainties and judgements made in relation to lease

- the asset is held within a business model whose objective is to collect the contractual cashflows, and
- the contractual terms give rise to cash flows that are solely payments of principal and interest.

KEY INFORMATION

Initial recognition

An item of property, plant and equipment or infrastructure that qualifies for recognition as an asset is measured at its cost.

Upon initial recognition, cost is determined as the amount paid (or other consideration given) to acquire the assets, plus costs incidental to the acquisition. The cost of non-current assets constructed by the Shire includes the cost of all materials used in construction, direct labour on the project and an appropriate proportion of variable and fixed overheads. For assets acquired at zero cost or otherwise significantly less than fair value, cost is determined as fair value at the date of acquisition.

Assets for which the fair value as at the date of acquisition is under \$5,000 are not recognised as an asset in accordance with *Local Government (Financial Management) Regulation 17A(5)*. These assets are expensed immediately.

Where multiple individual low value assets are purchased together as part of a larger asset or collectively forming a larger asset exceeding the threshold, the individual assets are recognised as one asset and capitalised.

Individual assets that are land, buildings and infrastructure acquired between scheduled revaluation dates of the asset class in accordance with the Shire's revaluation policy, are recognised at cost and disclosed as being at reportable value.

Measurement after recognition

Plant and equipment including furniture and equipment and right-of-use assets (other than vested improvements) are measured using the cost model as required under *Local Government (Financial Management) Regulation 17A(2)*. Assets held under the cost model are carried at cost less accumulated depreciation and any impairment losses being their reportable value.

Reportable Value

In accordance with *Local Government (Financial Management) Regulation 17A(2)*, the carrying amount of non-financial assets that are land and buildings classified as property, plant and equipment, investment properties, infrastructure or vested improvements that the local government controls.

Reportable value is for the purpose of *Local Government (Financial Management) Regulation 17A(4)* is the fair value of the asset at its last valuation date minus (to the extent applicable) the accumulated depreciation and any accumulated impairment losses in respect of the non-financial asset subsequent to its last valuation date.

KEY INFORMATION

Trade and other receivables include amounts due from ratepayers for unpaid rates and service charges and other amounts due from third parties for goods sold and services performed in the ordinary course of business.

Trade receivables are recognised at original invoice amount less any allowances for uncollectable amounts (i.e. impairment). The carrying amount of net trade receivables is equivalent to fair value as it is due for settlement within 30 days.

Classification and subsequent measurement

Receivables which are generally due for settlement within 30 days except rates receivables which are expected to be collected within 12 months are classified as current assets. All other receivables such as, deferred pensioner rates receivable after the end of the reporting period are classified as non-current assets.

Trade and other receivables are held with the objective to collect the contractual cashflows and therefore the Shire measures them subsequently at amortised cost using the effective interest rate method.

KEY INFORMATION

Provisions

Provisions are recognised when the Shire has a present legal or constructive obligation, as a result of past events, for which it is probable that an outflow of economic benefits will result and that outflow can be reliably measured.

Provisions are measured using the best estimate of the amounts required to settle the obligation at the end of the reporting period.

Employee Related Provisions

Short-term employee benefits

Provision is made for the Shire's obligations for short-term employee benefits. Short-term employee benefits are benefits (other than termination benefits) that are expected to be settled wholly before 12 months after the end of the annual reporting period in which the employees render the related service, including wages, salaries and sick leave. Short-term employee benefits are measured at the (undiscounted) amounts expected to be paid when the obligation is settled.

The Shire's obligations for short-term employee benefits such as wages, salaries and sick leave are recognised as a part of current trade and other payables in the calculation of net current assets.

Other long-term employee benefits

The Shire's obligations for employees' annual leave and long service leave entitlements are recognised as employee related provisions in the statement of financial position.

Long-term employee benefits are measured at the present value of the expected future payments to be made to employees. Expected future payments incorporate anticipated future wage and salary levels, durations of service and employee departures and are discounted at rates determined by reference to market yields at the end of the reporting period on government bonds that have maturity dates that approximate the terms of the obligations. Any remeasurements for changes in assumptions of obligations for other long-term employee benefits are recognised in profit or loss in the periods in which the changes occur. The Shire's obligations for long-term employee benefits are presented as non-current provisions in its statement of financial position, except where the Shire does not have an unconditional right to defer settlement for at least 12 months after the end of the reporting period, in which case the obligations are presented as current provisions.

Contract liabilities

An entity's obligation to transfer goods or services to a customer for which the entity has received consideration (or the amount is due) from the customer.

Capital grant/contribution liabilities

Grants to acquire or construct recognisable non-financial assets to identified specifications be constructed to be controlled by the Shire are recognised as a liability until such time as the Shire satisfies its obligations under the agreement.
