President's Report

The end of year is approaching very fast, only a few more months and we will be in 2025. and we have been quite busy, So let me fill you in.

For those who don't know the WALGA Convention. It is the ultimate event where WALGA (WA Local Government Association) brings together Elected Members, Council Officers, and key industry stakeholders as part of a unique program of professional development, networking and business opportunities. This year's theme 'Innovation Ecosystem' spoke to the ability of WALGA and the sector to foster dynamic change within the fabric of WA through collaboration, promotion and daring to think big. CEO Ian Holland, Cr Willock, Cr Hodder, Cr Payne and myself attended this years convention were we have the privilege to meet with the Minister for Local Government, Hon Hannah Beazley and the Deputy Premier Hon Rita Saffioti, in which we raises the Major issues that affect Yalgoo.

On the 18th October 2024 we met with the Federal Member of Durack Melissa Price MP and Member of North West Central Merome Beard and discussed the opportunities along with some of the challenges we are all facing in the bush, such as a lack of police, health services and volunteers, emergency Helicopter in the region, inadequate roads, and housing.

As the Shire President these are the issues I will continue to fight for to help benefit our community and region. Being said come the 22 November 2024 I will be attending Cue Parliament along with the CEO Ian Holland and once again I will be raising the same issues in hope to see some changes and that our voices are heard.

Cr Raul Valenzuela
Shire President

Chief Executive Officer's Report

Community Hall Renovation

I would like to introduce Peter Chkanaukas and Clayton Lewis. Over the past few months you would have seen Peter and Clayton in and around town, they have started the renovation works on the Community Hall, so far the walls and ceilings, toilets and cabinets have been torn down ready to be replaced, we still have a fair way to go for the community hall to be finished.

Fire Training

On the 10th of October 2024, Rick Ryan from the Department of Fire & Emergency Services came out and conducted fire training. Our depot crew knuckled down, preparing for the bushfire season.

Farewell to Criag

After six years, we are saying farewell to Craig Holland, he came to us as a Plant Operator then moved into the position of Works Foreman. It was a pleasure working with you and we wish you all the best, enjoy your retirement.

Ian Holland
Chief Executive Officer

Yalgoo Profile

The Shire of Yalgoo covers approximately 33,257sqkm of Western Australia's Mid West region. Located 497 km north of Perth, Yalgoo is a small settlement on the road from Geraldton to Mount Magnet. Yalgoo's appeal is that it is genuinely historic, after once being a thriving town during the gold rush era of the early 1980s.

The Shire's primary settlement of Yalgoo has a population of around 120 people with 400 people living throughout the Shire. The Shire generates an estimated \$1.080billion in output which accounts for 6.1% of total economic output for the Mid West region. The industry sector with the largest contribution to economic output is Mining with \$1.003billion, followed by Construction with \$24.1million.

The Council

The Yalgoo Shire Council is one of 139 in Western Australia and its six (6) elected members are responsible for making decisions on behalf of the district.

Local Government Elections are held every two years. An election was held in October 2021 where Cr Willock replaced Cr Lawson. Another election was held in 2023 where two vacancies resulted from Cr Simpson and Cr G Payne not renominating and no other nominations. An extraordinary election was held in March 2024 at which Cr Nichols and Cr K Payne were elected.

Strategic Direction

Vision

Inclusive and Peaceful, Prosperous and Strong

Mission

To be an honest equitable and efficient Local Government delivering honest, equitable timely and appropriate services to secure economic sustainability and community wellbeing

Objectives

Economy: A modern and sustainable economy that provides for our growing community.

Environment: An environment that is managed well and appreciated by all.

Social: An educated, respectful, and inclusive community - a place where people feel they belong.

Civic Leadership: To be a Shire that serves our community with leadership, accountability, and integrity.

Annual Performance

During 2023/24, the Shire completed a number of projects and initiatives that align with the objectives of our Strategic Community Plan as follows:

Economy

- Ninghan road widening continued
- Replacement of plant and equipment
- Works to Railway Building
- Works on Town Hall

Environment

- Continued work with Murchison Regional Vermin Council
- Contribution to Southern Rangelands Pastoral association

Annual Performance

Social

- The Carey Right Track Foundation visited and hosted 10 workshops.
- A circus workshop was held by Soda Sessions.
- A seniors morning tea and geology session was held at Golden Grove 29 Metals.
- Hosted the annual Emu Festival with family fun day.

Civic Leadership

- Two Councillors attended the Australian Local Government Association AGM in Canberra.
- Five staff undertook specialised training including Health & Safety and Training & Assessment.
- An SMS Notification Platform was established to communicate emergencies, road closures, fire bans, harvest movements and community events.
- New logo branding was created to reflect our community and culture. Our fleet were branded with decals.

Community Engagement

The Shire produces regular publications to promote our successes, services and events to the community and stakeholders. These are published on our website, social media, and a variety of print media which are important tools for engagement. These tools enable the community to stay informed, participate in discussions and provide feedback on Shire initiatives.

WEBSITE

www.yalgoo.wa.gov.au

The Shire's official website includes valuable information for the community and visitors. The website had 20,216 users with 55,590 views. The engagement rate for the website was 94.85%.

SOCIAL MEDIA

www.facebook.com/shireofyalgoo

The Shire's official Facebook page communicates what is happening in the community as well as upcoming Council Meeting dates and times. There were 923 followers as at 30 June 2024.

COMMUNITY NEWSLETTER

The Shire distributes a Bi-Monthly newsletter, 'Bulldust' via our website and with hard copies distributed to active PO boxes. Hardcopies are also available at Shire Offices, General Store and Caravan Park.

PUBLIC NOTICES

Public notices are a statutory mechanism prescribed under the Western Australian Local Government Act 1995. There are a variety of matters for which the Shire must publish a public notice, including for the review of local laws, disposal of property, and local government elections, among others. The Shire published 15 statutory public notices in 2023/24.

SMS NOTIFICATION PLATFORM

An SMS Notification Platform was established in 2023/24 to communicate important information to the community. As at 30 June 2024, there were 43 registered community members.

Statutory Information

National Competition Policy

Regarding Council's responsibilities in relation to National Competition Policy the Shire reports that:

- No business enterprise of the Shire has been classified by the Australian Bureau of Statistics as either a Public Trading Enterprise or a Public Financial Enterprise.
- Competitive neutrality has not applied to any activities undertaken by the Shire in this reporting period.
- No allegations of non-compliance with the competitive neutrality principles have been made by any private entity.
- The principles of competitive neutrality were implemented in respect of any relevant activity undertaken during the 2023/24 year.

Competitive Neutrality

This principle deals with ensuring that government business operations have no advantage or disadvantage in comparison with the private sector. This policy dictates that competitive neutrality should apply to all business activities which generate a user pays income of over \$200,000 unless it can be shown that it is not in the public interest. In this regard, no significant new business activities for the purposes of competitive neutrality were initiated or considered during the year and no non-compliance allegations were made. The Shire of Yalgoo conducts no activities where the user pays income exceeds \$200,000.

Disability Access & Inclusion Plan

Under the Disability Services Act 1993, the Shire must include a report about DAIP implementation in its annual report each year. In 2023/24, the Yalgoo Emu Festival was held in accordance with Disability Access & Inclusion regulations.

Complaints Register

In accordance with s5.120 of the Local Government Act 1995, the Shire does not have a designated Complaints Officer and the Chief Executive Officer fulfils this role in terms of subsection (2). As required in accordance with s5.121 'Register of certain complaints of minor breaches' of the Act, the Shire maintains an electronic register that is managed by the Executive Office. The Shire reports no complaints for the period ending 30 June 2024.

Freedom of Information

The Freedom of Information Act 1992 gives the public a right to apply for access to documents held by the Shire of Yalgoo. The Shire aims to make information available whenever possible, outside the freedom of information process. No Freedom of Information applications were received in 2023/24.

Legislation Review

The Shire reviewed its Local Laws in November 2006. No local laws were reviewed in 2023/24.

Record Keeping

In accordance with legislative requirements, the Shire reviewed and adopted its Record Keeping Plan. This plan was then approved by the State Records Commission. There were 28 incoming records registered and 83 outgoing records registered.

Capital Grants

GRANT	21/22	22/23	23/24
Roads to Recovery	\$377,293	0	\$754,587
Regional Roads Group	\$200,000	\$240,000	\$300,000
LRCI Program	\$199,802	\$414,110	0
Lotterywest	0	0	\$143,940
CSRFF	0	0	\$16,327

Employee Remuneration

In accordance with Regulation 19B of the Local Government (Administration) Regulations 1996, the number of Shire employees entitled to an annual salary of \$130,000 or more are:

Salary Range	No. of Employees
\$130,000-\$139,000	0
\$140,000-\$149,000	0
\$150,000-\$159,000	0
\$160,000-\$169,000	0
\$170,000-\$179,000	0
\$180,000-\$189,000	1
\$190,000-\$199,000	0
\$200,000-\$209,000	0
\$210,000-\$219,000	0
\$220,000-\$229,000	0
\$230,000-\$239,000	1

CEO remuneration for 23/24 was \$232,633

Other Information

Other information required by legislation is as follows

- The Shire was not involved in any trading undertakings at reporting date.
- The Shire was not involved in any land transactions during the year.
- The Shire was not involved in any joint venture arrangements at reporting date.
- The Shire did not have any investments in associates at reporting date.
- The Shire did not hold any investment properties at reporting date.

The following provides the future initiatives planned to be undertaken

- Plant and Equipment replacement
- Road maintenance and construction works
- Renovations to Town Hall
- Purchase Yalgoo Hotel
- Caravan Park Chalets

This statement is to be read in conjunction with the accompanying notes.

SHIRE OF YALGOO
NOTES TO AND FORMING PART OF THE FINANCIAL REPORT
FOR THE YEAR ENDED 30 JUNE 2024

1. BASIS OF PREPARATION

The financial report of the Shire of Yalgoo which is a Class 4 local government comprises general purpose financial statements which have been prepared in accordance with the *Local Government Act 1995* and accompanying regulations.

Local Government Act 1995 requirements

Section 6.4(2) of the *Local Government Act 1995* read with the *Local Government (Financial Management) Regulations 1996* prescribe that the financial report be prepared in accordance with the *Local Government Act 1995* and, to the extent that they are not inconsistent with the *Local Government Act 1995*, the Australian Accounting Standards. The Australian Accounting Standards (as they apply to local governments and not-for-profit entities) and Interpretations of the Australian Accounting Standards Board except for disclosure requirements of:

- AASB 7 Financial Instruments Disclosures
- AASB 16 Leases paragraph 58
- AASB 101 Presentation of Financial Statements paragraph 61
- AASB 107 Statement of Cash Flows paragraphs 43 and 45
- AASB 116 Property, Plant and Equipment paragraph 79
- AASB 137 Provisions, Contingent Liabilities and Contingent Assets paragraph 85
- AASB 140 Investment Property paragraph 75(f)
- AASB 1052 Disaggregated Disclosures paragraph 11
- AASB 1054 Australian Additional Disclosures paragraph 16

The *Local Government (Financial Management) Regulations 1996* specify that vested land is a right-of-use asset to be measured at cost, and is considered a zero cost concessionary lease. All right-of-use assets under zero cost concessionary leases are measured at zero cost rather than at fair value, except for vested improvements on concessionary land leases such as roads, buildings or other infrastructure which continue to be reported at fair value, as opposed to the vested land which is measured at zero cost. The measurement of vested improvements at fair value is a departure from AASB 16 Leases which would have required the Shire to measure any vested improvements at zero cost.

The *Local Government (Financial Management) Regulations 1996* provide that:

- land and buildings classified as property, plant and equipment; or
 - infrastructure; or
 - vested improvements that the local government controls ;
- and measured at reportable value, are only required to be revalued every five years. Revaluing these non-financial assets every five years is a departure from AASB 116 *Property, Plant and Equipment*, which would have required the Shire to assess at each reporting date whether the carrying amount of the above mentioned non-financial assets materially differs from their fair value and, if so, revalue the class of non-financial assets.

Accounting policies which have been adopted in the preparation of this financial report have been consistently applied unless stated otherwise. Except for cash flow and rate setting information, the financial report has been prepared on the accrual basis and is based on historical costs, modified, where applicable, by the measurement at fair value of selected non-current assets, financial assets and liabilities.

Critical accounting estimates and judgements

The preparation of a financial report in conformity with Australian Accounting Standards requires management to make judgements, estimates and assumptions that effect the application of policies and reported amounts of assets and liabilities, income and expenses.

The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances; the results of which form the basis of making the judgements about carrying amounts of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

Critical accounting estimates and judgements (Continued)

As with all estimates, the use of different assumptions could lead to material changes in the amounts reported in the financial report.

The following are estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year and further information on their nature and impact can be found in the relevant note:

- Fair value measurement of assets carried at reportable value including:
 - Property, plant and equipment - Note 7
 - Infrastructure - Note 8
- Expected credit losses on financial assets - note 5
- Impairment losses of non-financial assets - note
- Measurement of employee benefits - Note 13

Fair value heirarchy information can be found in Note 21

The local government reporting entity

All funds through which the Shire controls resources to carry on its functions have been included in the financial statements forming part of this financial report.

All monies held in the Trust Fund are excluded from the financial statements. A separate statement of those monies appears at Note 26 of the financial report.

Initial application of accounting standards

During the current year, the following new or revised Australian Accounting Standards and Interpretations were applied for the first time.

- AASB 2021-2 Amendments to Australian Accounting Standards - Disclosure of Accounting Policies or Definition of Accounting Estimates

This standard resulted in terminology changes relating to material accounting policies (formerly referred to as significant accounting policies).

New accounting standards for application in future years

The following new accounting standards will have application to local government in future years:

- AASB 2014-10 Amendments to Australian Accounting Standards - Sale or Contribution of Assets between an Investor and its Associate or Joint Venture
 - AASB 2020-1 Amendments to Australian Accounting Standards - Classification of Liabilities as Current or Non-Current
 - AASB 2021-7c Amendments to Australian Accounting Standards - Effective Date of Amendments to AASB 10 and AASB 128 and Editorial Corrections [deferred AASB 10 and AASB 128 amendments in AASB 2014-10 apply]
 - AASB 2022-5 Amendments to Australian Accounting Standards - Lease Liability in a Sale and Leaseback
 - AASB 2022-6 Amendments to Australian Accounting Standards - Non-current Liabilities with Covenants
- These amendments are not expected to have any material impact on the financial report on initial application.
- AASB 2022-10 Amendments to Australian Accounting Standards - Fair Value Measurement of Non-Financial Assets of Not-for-Profit Public Sector Entities

These amendment may result in changes to the fair value of non-financial assets. The impact is yet to be quantified.

- AASB 2023-1 Amendments to Australian Accounting Standards - Supplier Finance Arrangements

These amendments may result in additional disclosures in the case of applicable finance arrangements.

SHIRE OF YALGOO
NOTES TO AND FORMING PART OF THE FINANCIAL REPORT
FOR THE YEAR ENDED 30 JUNE 2024

2. REVENUE AND EXPENSES

(a) Revenue

Contracts with customers

Recognition of revenue is dependant on the source of revenue and the associated terms and conditions associated with each source of revenue and recognised as follows:

Revenue Category	Nature of goods and services	When obligations typically satisfied	Payment terms	Returns/Refunds/Warranties	Timing of revenue recognition
Grants, subsidies and contributions	Community events, minor facilities, research, design, planning evaluation and services	Over time	Fixed terms transfer of funds based on agreed milestones and reporting	Contract obligation if project not complete	Output method based on project milestones and/or completion date matched to performance obligations
Fees and charges - licences, registrations, approvals	Building, planning, development and animal management.	Single point in time	Full payment prior to issue	None	On payment of the licence, registration or approval
Rates	General Rates	Over Time	Payment Dates adopted by council during the year	None	When Rates notice is issued
License/Registration/Approvals	Building Planning, Development and animal management.	Single Point in Time	Full payment prior to issue	None	On payment and issue of license, registration or approval.
Property hire and entry	Use of Halls and facilities	Single Point in Time	In advance in full.	None	On entry or at conclusion of hire.
Other revenue - private works	Contracted private works	Single point in time	Monthly in arrears	None	At point of service

Consideration from contracts with customers is included in the transaction price.

Revenue Recognition

Revenue recognised during the year under each basis of recognition by nature of goods or services is provided in the table below:

For the year ended 30 June 2024

Nature	Contracts with customers	Capital grant/contributions	Statutory Requirements	Other	Total
	\$	\$	\$	\$	\$
Rates	0	0	2,888,041	0	2,888,041
Grants, subsidies and contributions	370,009	0	0	2,948,166	3,318,175
Fees and charges	246,482	0	7,198	0	253,680
Interest revenue	0	0	18,037	178,831	196,868
Other revenue	0	0	0	87,834	87,834

- Unrestricted cash and cash equivalents		3,449,373	5,361,090
- Restricted cash and cash equivalents	15	225,051	2,228,617
		3,674,424	7,589,707

MATERIAL ACCOUNTING POLICIES

Cash and cash equivalents

Cash and cash equivalents include cash on hand, cash at bank, deposits available on demand with banks and other short term highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

Bank overdrafts are reported as short term borrowings in current liabilities in the statement of financial position.

Restricted financial assets

Restricted financial asset balances are not available for general use by the local government due to externally imposed restrictions. Restrictions are specified in an agreement, contract or legislation. This applies to reserve accounts, unspent grants, subsidies and contributions and unspent loans that have not been fully expended in the manner specified by the contributor, legislation or loan agreement and for which no liability has been recognised.

4. OTHER FINANCIAL ASSETS

	Note	2024 \$	2023 \$
(a) Current assets			
Financial assets at amortised cost		4,420,623	0
		4,420,623	0

Held as			
- Restricted other financial assets at amortised cost	15	4,420,623	0
		4,420,623	0
(b) Non-current assets			
Financial assets at fair value through profit or loss		20,792	20,792
		20,792	20,792
Financial assets at fair value through profit or loss			
Units in Local Government House Trust - opening balance		20,792	20,372
Movement in fair value		0	420
Units in Local Government House Trust - closing balance		20,792	20,792

MATERIAL ACCOUNTING POLICIES

Other financial assets at amortised cost

The Shire classifies financial assets at amortised cost if both of the following criteria are met:

- the asset is held within a business model whose objective is to collect the contractual cashflows, and
- the contractual terms give rise to cash flows that are solely payments of principal and interest.

Fair values of financial assets at amortised cost are not materially different to their carrying amounts, since the interest receivable on those assets is either close to current market rates or the assets are of a short term nature. Non-current financial assets at amortised cost fair values are based on discounted cash flows using a current market rates. They are classified as level 2 fair values in the fair value hierarchy (see Note 21 (i)) due to the observable market rates).

Interest received is presented under cashflows from operating activities in the Statement of Cash Flows where it is earned from financial assets that are held for cash management purposes.

Financial assets at fair value through profit or loss

The Shire has elected to classify the following financial assets at fair value through profit or loss:

- debt investments which do not qualify for measurement at either amortised cost or fair value through other comprehensive income.
- equity investments which the Shire has elected to recognise as fair value gains and losses through profit or loss.

SHIRE OF YALGOO
NOTES TO AND FORMING PART OF THE FINANCIAL REPORT
FOR THE YEAR ENDED 30 JUNE 2024

5. TRADE AND OTHER RECEIVABLES

Current

Rates and statutory receivables
Trade receivables
ATO receivables
Receivables for employee related provisions
Allowance for credit losses of receivables
Other receivables

	2024	2023
	\$	\$
	132,477	450,951
	31,904	33,292
	115,791	0
	12,201	0
	(46,751)	(46,751)
	0	50,163
	<u>245,622</u>	<u>487,655</u>

MATERIAL ACCOUNTING POLICIES

Rates and statutory receivables

Rates and statutory receivables are non-contractual receivables arising from statutory requirements and include amounts due from ratepayers for unpaid rates and service charges and other statutory charges or fines.

Rates and statutory receivables are recognised when the taxable event has occurred and can be measured reliably.

Trade receivables

Trade receivables are amounts receivable from contractual arrangements with customers for goods sold, services performed or grants or contributions with sufficiently specific performance obligations or for the construction of recognisable non financial assets as part of the ordinary course of business.

Other receivables

Other receivables are amounts receivable from contractual arrangements with third parties other than contracts with customers and amounts received as grants for the construction of recognisable non financial assets.

Measurement

Trade and other receivables are recognised initially at the amount of the transaction price, unless they contain a significant financing component, and are to be recognised at fair value.

Classification and subsequent measurement

Receivables which are generally due for settlement within 30 days except rates receivables which are expected to be collected within 12 months are classified as current assets. All other receivables such as, deferred pensioner rates receivable after the end of the reporting period are classified as non-current assets.

Trade and other receivables are held with the objective to collect the contractual cashflows and therefore the Shire measures them subsequently at amortised cost using the effective interest rate method.

Due to the short term nature of current receivables, their carrying amount is considered to be the same as their fair value. Non-current receivables are indexed to inflation, any difference between the face value and fair value is considered immaterial.

SHIRE OF YALGOO

7. PROPERTY, PLANT AND EQUIPMENT (Continued)

(b) Carrying Amount Measurements

Asset Class	Fair Value Hierarchy	Valuation Technique	Basis of Valuation	Date of Last Valuation	Inputs Used
(i) Fair Value - as determined at the last valuation date					
Land and buildings					
Land	Level 2	Market approach using recent observable market data for similar properties/income approach using discounted cashflow methodology	Independent registered valuer	June 2022	Price per hectare/market borrowing rates
Buildings - non-specialised	Level 2	Market approach using recent observable market data for similar properties/income approach using discounted cashflow methodology	Independent registered valuer	June 2022	Price per hectare/market borrowing rates
Buildings - specialised	Level 3	Improvements valued using cost approach using depreciated replacement cost	Independent registered valuer	June 2022	Improvements to land using construction costs (level 2), current condition, residual values and remaining useful life assessments (level 3) inputs
Level 3 inputs are based on assumptions with regards to future values and patterns of consumption utilising current information. If the basis of these assumptions were varied, they have the potential to result in a significantly higher or lower fair value measurement.					
During the period there were no changes in the valuation techniques used by the local government to determine the fair value of property, plant and equipment using either level 2 or level 3 inputs. The valuation techniques applied to property subject to lease was the same as that applied to property not subject to lease.					
(ii) Cost					
Furniture and equipment	N/A	Cost	Cost	N/A	
Plant and equipment	N/A	Cost	Cost	N/A

Infrastructure - roads	Level 3	Cost approach using depreciated replacement cost	Management valuation	June 2018	Construction costs (level 2), current condition, residual values and remaining useful life assessments (level 3) inputs
Infrastructure - airport	Level 3	Cost approach using depreciated replacement cost	Management valuation	June 2022	Construction costs (level 2), current condition, residual values and remaining useful life assessments (level 3) inputs
Infrastructure - other	Level 3	Cost approach using depreciated replacement cost	Independent registered valuer	June 2022	Construction costs (level 2), current condition, residual values and remaining useful life assessments (level 3) inputs

Level 3 inputs are based on assumptions with regards to future values and patterns of consumption utilising current information. If the basis of these assumptions were varied, they have the potential to result in a significantly higher or lower fair value measurement.

During the period there were no changes in the valuation techniques used to determine the fair value of infrastructure using level 3 inputs.

SHIRE OF YALGOO
NOTES TO AND FORMING PART OF THE FINANCIAL REPORT
FOR THE YEAR ENDED 30 JUNE 2024

9. FIXED ASSETS

(a) Depreciation

Depreciation rates

Typical estimated useful lives for the different asset classes for the current and prior years are included in the table below:

Asset Class	Useful life
Buildings	30 to 50 years
Furniture and equipment	4 to 10 years
Plant and equipment	5 to 15 years
Sealed roads and streets	
formation	not depreciated
pavement	50 years
seal	
- bituminous seals	20 years
- asphalt surfaces	25 years
Gravel roads	
formation	not depreciated
pavement	50 years
Footpaths - slab	20 years
Airport	50 years
Other Infrastructure	8 - 40 years
Sewerage piping	100 years
Water supply piping and drainage systems	75 years

SHIRE OF YALGOO
NOTES TO AND FORMING PART OF THE FINANCIAL REPORT
FOR THE YEAR ENDED 30 JUNE 2024

9. FIXED ASSETS (Continued)

MATERIAL ACCOUNTING POLICIES

Initial recognition

An item of property, plant and equipment or infrastructure that qualifies for recognition as an asset is measured at its cost.

Upon initial recognition, cost is determined as the amount paid (or other consideration given) to acquire the assets, plus costs incidental to the acquisition. The cost of non-current assets constructed by the Shire includes the cost of all materials used in construction, direct labour on the project and an appropriate proportion of variable and fixed overheads. For assets acquired at zero cost or otherwise significantly less than fair value, cost is determined as fair value at the date of acquisition.

Assets for which the fair value as at the date of acquisition is under \$5,000 are not recognised as an asset in accordance with *Local Government (Financial Management) Regulation 17A(5)*. These assets are expensed immediately.

Where multiple individual low value assets are purchased together as part of a larger asset or collectively forming a larger asset exceeding the threshold, the individual assets are recognised as one asset and capitalised.

Individual assets that are land, buildings and infrastructure acquired between scheduled revaluation dates of the asset class in accordance with the Shire's revaluation policy, are recognised at cost and disclosed as being at reportable value.

Measurement after recognition

Plant and equipment including furniture and equipment and right-of-use assets (other than vested improvements) are measured using the cost model as required under *Local Government (Financial Management) Regulation 17A(2)*. Assets held under the cost model are carried at cost less accumulated depreciation and any impairment losses being their reportable value.

Reportable Value

In accordance with *Local Government (Financial Management) Regulation 17A(2)*, the carrying amount of non-financial assets that are *land and buildings classified as property, plant and equipment*, investment properties, infrastructure or vested improvements that the local government controls.

Reportable value is for the purpose of *Local Government (Financial Management) Regulation 17A(4)* is the fair value of the asset at its last valuation date minus (to the extent applicable) the accumulated depreciation and any accumulated impairment losses in respect of the non-financial asset subsequent to its last valuation date.

Revaluation

Land and buildings classified as property, plant and equipment, *infrastructure or vested improvements that the local government controls* and measured at reportable value, are only required to be revalued every five years in accordance with the regulatory framework. This includes buildings and infrastructure items which were pre-existing improvements (i.e. vested improvements) on land vested in the Shire.

Revaluation (Continued)

Whilst the regulatory framework only requires a revaluation to occur every five years, it also provides for the Shire to revalue earlier if it chooses to do so.

For land, buildings and infrastructure, increases in the carrying amount arising on revaluation of asset classes are credited to a revaluation surplus in equity.

Decreases that offset previous increases of the same class of asset are recognised against revaluation surplus directly in equity. All other decreases are recognised in profit or loss.

Subsequent increases are then recognised in profit or loss to the extent they reverse a net revaluation decrease previously recognised in profit or loss for the same class of asset.

Depreciation

The depreciable amount of all property, plant and equipment and infrastructure, are depreciated on a straight-line basis over the individual asset's useful life from the time the asset is held ready for use. Leasehold improvements are depreciated over the shorter of either the unexpired period of the lease or the estimated useful life of the improvements.

The assets residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period.

Depreciation on revaluation

When an item of property, plant and equipment and infrastructure is revalued, any accumulated depreciation at the date of the revaluation is treated in one of the following ways:

- (i) The gross carrying amount is adjusted in a manner that is consistent with the revaluation of the carrying amount of the asset.
- (ii) Eliminated against the gross carrying amount of the asset and the net amount restated to the revalued amount of the asset.

Impairment

In accordance with *Local Government (Financial Management) Regulations 17A(4C)*, the Shire is not required to comply with *AASB 136 Impairment of Assets* to determine the recoverable amount of its non-financial assets that are land or buildings classified as property, plant and equipment, infrastructure or vested improvements that the local government controls in circumstances where there has been an impairment indication of a general decrease in asset values.

In other circumstances where it has been assessed that one or more of these non-financial assets are impaired, the asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

Gains or losses on disposal

Gains and losses on disposals are determined by comparing proceeds with the carrying amount. These gains and losses are included in the statement of comprehensive income in the period in which they arise.

SHIRE OF YALGOO
NOTES TO AND FORMING PART OF THE FINANCIAL REPORT
FOR THE YEAR ENDED 30 JUNE 2024

10. TRADE AND OTHER PAYABLES

	2024	2023
	\$	\$
Current		
Sundry creditors	571,586	164,300
Prepaid rates	51,109	213,430
Accrued payroll liabilities	50,419	64,827
ATO liabilities	21,999	42,109
Bonds and deposits held	17,322	16,767
Other payables	116,816	92,562
Accrued interest on borrowings	0	257
	829,251	594,252

MATERIAL ACCOUNTING POLICIES

Financial liabilities

Financial liabilities are initially recognised at fair value when the Shire becomes a party to the contractual provisions of the instrument.

Non-derivative financial liabilities (excluding financial guarantees) are subsequently measured at amortised cost.

Financial liabilities are derecognised where the related obligations are discharged, cancelled or expired. The difference between the carrying amount of the financial liability extinguished or transferred to another party and any consideration paid, including the transfer of non-cash assets or liabilities assumed, is recognised in profit or loss.

Trade and other payables

Trade and other payables represent liabilities for goods and services provided to the Shire prior to the end of the financial year that are unpaid and arise when the Shire becomes obliged to make future payments in respect of the purchase of these goods and services. The amounts are unsecured, are recognised as a current liability and are usually paid within 30 days of recognition. The carrying amounts of trade and other payables are considered to be the same as their fair values, due to their short-term nature.

Prepaid rates

Prepaid rates are, until the taxable event has occurred (start of the next financial year), refundable at the request of the ratepayer. Rates received in advance are initially recognised as a financial liability. When the taxable event occurs, the financial liability is extinguished and the Shire recognises income for the prepaid rates that have not been refunded.

SHIRE OF YALGOO
NOTES TO AND FORMING PART OF THE FINANCIAL REPORT
FOR THE YEAR ENDED 30 JUNE 2024

11. OTHER LIABILITIES

	2024	2023

	0	0
Expected satisfaction of contract liabilities		
Less than 1 year	154,025	26,433
	154,025	26,433

Performance obligations in relation to capital grant/contribution liabilities are satisfied as project milestones are met or completion of construction or acquisition of the asset.

MATERIAL ACCOUNTING POLICIES

Contract liabilities

Contract liabilities represent the Shire's obligation to transfer goods or services to a customer for which the Shire has received consideration from the customer.

Contract liabilities represent obligations which are not yet satisfied. Contract liabilities are recognised as revenue when the performance obligations in the contract are satisfied.

Capital grant/contribution liabilities

Capital grant/contribution liabilities represent the Shire's obligations to construct recognisable non-financial assets to identified specifications to be controlled by the Shire which are yet to be satisfied. Capital grant/contribution liabilities are recognised as income when the obligations in the contract are satisfied.

Total secured borrowings	24(a)	0	0	0	46,815	0	46,815

Secured liabilities and assets pledged as security

MATERIAL ACCOUNTING POLICIES

Borrowing costs

The Shire has elected to recognise borrowing costs as an expense when incurred regardless of how the borrowings are applied.

Fair values of borrowings are not materially different to their carrying amounts, since the interest payable on those borrowings is either close to current market rates or the borrowings are of a short term nature.

Borrowings fair values are based on discounted cash flows using a current borrowing rate. They are classified as level 3 fair values in the fair value hierarchy (see Note 21(i)) due to the unobservable inputs, including own credit risk.

Risk

Details of individual borrowings required by regulations are provided at Note 24(a).

SHIRE OF YALGOO
NOTES TO AND FORMING PART OF THE FINANCIAL REPORT
FOR THE YEAR ENDED 30 JUNE 2024

13. EMPLOYEE RELATED PROVISIONS

Employee Related Provisions

	2024	2023
	\$	\$
Current provisions		
Employee benefit provisions		
Annual leave	157,231	214,362
Long service leave	96,436	101,283
Total current employee related provisions	253,667	315,645
Non-current provisions		
Employee benefit provisions		
Long service leave	79,941	65,461
Total non-current employee related provisions	79,941	65,461
Total employee related provisions	333,608	381,106

Provision is made for benefits accruing to employees in respect of wages and salaries, annual leave and long service leave and associated on costs for services rendered up to the reporting date and recorded as an expense during the period the services are delivered.

Annual leave liabilities are classified as current, as there is no unconditional right to defer settlement for at least 12 months after the end of the reporting period.

MATERIAL ACCOUNTING POLICIES

Employee benefits

The Shire's obligations for employees' annual leave, long service leave and other employee leave entitlements are recognised as employee related provisions in the Statement of Financial Position.

Short-term employee benefits

Provision is made for the Shire's obligations for short-term employee benefits. Short-term employee benefits are benefits (other than termination benefits) that are expected to be settled wholly before 12 months after the end of the annual reporting period in which the employees render the related service, including wages, salaries and sick leave. Short-term employee benefits are measured at the (undiscounted) amounts expected to be paid when the obligation is settled.

The Shire's obligations for short-term employee benefits such as wages, salaries and sick leave are recognised as a part of current trade and other payables in the statement of financial position.

Other long-term employee benefits

Long-term employee benefits provisions are measured at the present value of the expected future payments to be made to employees. Expected future payments incorporate anticipated future wage and salary levels, durations of service and employee departures and are discounted at rates determined by reference to market yields at the end of the reporting period on government bonds that have maturity dates that approximate the terms of the obligations. Any remeasurements for changes in assumptions of obligations for other long-term employee benefits are recognised in profit or loss in the periods in which the changes occur.

The Shire's obligations for long-term employee benefits are presented as non-current provisions in its statement of financial position, except where the Shire does not have an unconditional right to defer settlement for at least 12 months after the end of the reporting period, in which case the obligations are presented as current provisions.

19. RELATED PARTY TRANSACTIONS (Continued)

Transactions with related parties

Transactions between related parties and the Shire are on normal commercial terms and conditions, no more favourable than those available to other parties, unless otherwise stated.

No outstanding balances or provisions for doubtful debts or guarantees exist in relation to related parties at year end.

In addition to KMP compensation above the following transactions occurred with related parties:

Purchase of goods and services

2024 Actual	2023 Actual
\$ 426,758	\$ 580,452
18,906	0

Amounts payable to related parties:

Trade and other payables

Related Parties

The Shire's main related parties are as follows:

i. Key management personnel

Any person(s) having authority and responsibility for planning, directing and controlling the activities of the Shire, directly or indirectly, including any council member, are considered key management personnel and are detailed in Notes 19(a) and 19(b).

ii. Other related parties

During the previous year, a company controlled by a related party of a council member, was awarded a contract under the selective tender process on terms and conditions equivalent for those that prevail in arm's length transactions under the Shire's procurement process.

Outside of normal citizen type transactions with the Shire, there were no other related party transactions involving key management personnel and/or their close family members and/or their controlled (or jointly controlled) entities.

iii. Entities subject to significant influence by the Shire

There were no such entities requiring disclosure during the current or previous year.

**SHIRE OF YALGOO
NOTES TO AND FORMING PART OF THE FINANCIAL REPORT
FOR THE YEAR ENDED 30 JUNE 2024**

20. EVENTS OCCURRING AFTER THE END OF THE REPORTING PERIOD

The Shire has procured legal services in relation to its flood damage claims. It is expected to be resolved towards the end of 2025.

The Shire began negotiations to purchase the Yalgoo Hotel which was settled in October 2025.

SHIRE OF YALGOO
NOTES TO AND FORMING PART OF THE FINANCIAL REPORT
FOR THE YEAR ENDED 30 JUNE 2024

21. OTHER MATERIAL ACCOUNTING POLICIES

a) Goods and services tax (GST)

Revenues, expenses and assets are recognised net of the amount of GST, except where the amount of GST incurred is not recoverable from the Australian Taxation Office (ATO).

Receivables and payables are stated inclusive of GST receivable or payable. The net amount of GST recoverable from, or payable to, the ATO is included with receivables or payables in the statement of financial position.

Cash flows are presented on a gross basis. The GST components of cash flows arising from investing or financing activities which are recoverable from, or payable to, the ATO are presented as operating cash flows.

b) Current and non-current classification

The asset or liability is classified as current if it is expected to be settled within the next 12 months, being the Shire's operational cycle. In the case of liabilities where the Shire does not have the unconditional right to defer settlement beyond 12 months, such as vested long service leave, the liability is classified as current even if not expected to be settled within the next 12 months. Inventories held for trading are classified as current or non-current based on the Shire's intentions to release for sale.

c) Rounding off figures

All figures shown in this annual financial report, other than a rate in the dollar, are rounded to the nearest dollar. Amounts are presented in Australian Dollars.

d) Comparative figures

Where required, comparative figures have been adjusted to conform with changes in presentation for the current financial year.

When the Shire applies an accounting policy retrospectively, makes a retrospective restatement or reclassifies items in its financial statements that has a material effect on the statement of financial position, an additional (third) Statement of Financial Position as at the beginning of the preceding period in addition to the minimum comparative financial report is presented.

e) Budget comparative figures

Unless otherwise stated, the budget comparative figures shown in this annual financial report relate to the original budget estimate for the relevant item of disclosure.

f) Superannuation

The Shire contributes to a number of Superannuation Funds on behalf of employees. All funds to which the Shire contributes are defined contribution plans.

g) Fair value of assets and liabilities

Fair value is the price that the Shire would receive to sell the asset or would have to pay to transfer a liability, in an orderly (i.e. unforced) transaction between independent, knowledgeable and willing market participants at the measurement date.

As fair value is a market-based measure, the closest equivalent observable market pricing information is used to determine fair value. Adjustments to market values may be made having regard to the characteristics of the specific asset or liability. The fair values of assets that are not traded in an active market are determined using one or more valuation techniques. These valuation techniques maximise, to the extent possible, the use of observable market data.

To the extent possible, market information is extracted from either the principal market for the asset or liability (i.e. the market with the greatest volume and level of activity for the asset or liability) or, in the absence of such a market, the most advantageous market available to the entity at the end of the reporting period (i.e. the market that maximises the receipts from the sale of the asset after taking into account transaction costs and transport costs).

For non-financial assets, the fair value measurement also takes into account a market participant's ability to use the asset in its highest and best use or to sell it to another market participant that would use the asset in its highest and best use.

h) Interest revenue

Interest revenue is calculated by applying the effective interest rate to the gross carrying amount of a financial asset measured at amortised cost except for financial assets that subsequently become credit-impaired. For credit-impaired financial assets the effective interest rate is applied to the net carrying amount of the financial asset (after deduction of the loss allowance).

i) Fair value hierarchy

AASB 13 *Fair Value Measurement* requires the disclosure of fair value information by level of the fair value hierarchy, which categorises fair value measurement into one of three possible levels based on the lowest level that an input that is significant to the measurement can be categorised into as follows:

Level 1

Measurements based on quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date.

Level 2

Measurements based on inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly.

Level 3

Measurements based on unobservable inputs for the asset or liability.

The fair values of assets and liabilities that are not traded in an active market are determined using one or more valuation techniques. These valuation techniques maximise, to the extent possible, the use of observable market data. If all significant inputs required to measure fair value are observable, the asset or liability is included in Level 2. If one or more significant inputs are not based on observable market data, the asset or liability is included in Level 3.

Valuation techniques

The Shire selects a valuation technique that is appropriate in the circumstances and for which sufficient data is available to measure fair value. The availability of sufficient and relevant data primarily depends on the specific characteristics of the asset or liability being measured. The valuation techniques selected by the Shire are consistent with one or more of the following valuation approaches:

Market approach

Valuation techniques that use prices and other relevant information generated by market transactions for identical or similar assets or liabilities.

Income approach

Valuation techniques that convert estimated future cash flows or income and expenses into a single discounted present value.

Cost approach

Valuation techniques that reflect the current replacement cost of the service capacity of an asset.

Each valuation technique requires inputs that reflect the assumptions that buyers and sellers would use when pricing the asset or liability, including assumptions about risks. When selecting a valuation technique, the Shire gives priority to those techniques that maximise the use of observable inputs and minimise the use of unobservable inputs. Inputs that are developed using market data (such as publicly available information on actual transactions) and reflect the assumptions that buyers and sellers would generally use when pricing the asset or liability are considered observable, whereas inputs for which market data is not available and therefore are developed using the best information available about such assumptions are considered unobservable.

j) Impairment of assets

In accordance with Australian Accounting Standards the Shire's assets, other than inventories, are assessed at each reporting date to determine whether there is any indication they may be impaired.

Where such an indication exists, an impairment test is carried out on the asset by comparing the recoverable amount of the asset, being the higher of the asset's fair value less costs to sell and value in use, to the asset's carrying amount except for non-financial assets that are:

- land and buildings classified as property, plant and equipment;
- infrastructure; or
- vested improvements that the local government controls, in circumstances where there has been an impairment indication of a general decrease in asset values.

These non-financial assets are assessed in accordance with the regulatory framework detailed in Note 9.

Any excess of the asset's carrying amount over its recoverable amount is recognised immediately in profit or loss, unless the asset is carried at a revalued amount in accordance with another Standard (e.g. AASB 116 *Property, Plant and Equipment*) whereby any impairment loss of a revalued asset is treated as a revaluation decrease in accordance with that other Standard.

26. TRUST FUNDS

There were no funds held in Trust at 30 June 2024 or 30 June 2023.

27. LEASES

Lessor - Property, Plant and Equipment Subject to Lease

The table below represents a maturity analysis of the undiscounted lease payments to be received after the reporting date.

Less than 1 year
 1 to 2 years
 2 to 3 years
 3 to 4 years

Amounts recognised in profit or loss for Property, Plant and Equipment Subject to Lease

Rental income

	2024 Actual	2023 Actual
	\$	\$
	3,275	6,500
	0	3,275
	0	0
	0	0
	3,275	9,775
	7,605	7,338

SIGNIFICANT ACCOUNTING POLICIES

The Shire as Lessor

Upon entering into each contract as a lessor, the Shire assesses if the lease is a finance or operating lease.

The contract is classified as a finance lease when the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee. All other leases not within this definition are classified as operating leases. Rental income received from operating leases is recognised on a straight-line basis over the term of the specific lease.

Initial direct costs incurred in entering into an operating lease (eg legal cost, cost to setup) are included in the carrying amount of the leased asset and recognised as an expense on a straight-line basis over the lease term.

When a contract is determined to include lease and non-lease components, the Shire applies AASB 15 to allocate the consideration under the contract to each component.
